These need to get under control as well - can we add a communication protocol to keep press inquiries like these from flying around - this one got off on the wrong foot with bad direction from a peripheral person - we have fixed but would be better to go down right path in the first place. All questions about costs should include Ben B as well as me and Aaron. Thanks

Hi Kelcey and Aaron- Can you help with the Wall Street Journal question below?

15. We've learned that this particular EPA cleanup project to plug the mines in the Animas watershed, including Gold King & Sunnyside, cost \$1.5 million and began in July. Can you confirm that?
